**SUBJECT: 2009 ILLEGAL FOOD VENDOR ENFORCEMENT ACTIVITIES**

This is to provide an update on the enforcement activities related to illegal food vending conducted by the Department of Public Health (DPH) Environmental Health (EH) Division during the period January 2009 through January 2010.

### **GENERAL OVERVIEW**

Illegal food vendor enforcement activities target vendors who prepare and/or sell food that range from bags of oranges at street intersections to full-scale food preparation in venues like sidewalks and parking lots.

During the period of January 2009 through January 2010, EH conducted 264 multi-agency task force events (sweeps) to address illegal vending throughout Los Angeles County (see Attachment I). These sweeps included 3,136 inspections and resulted in 6,573 pieces of equipment and 194,908 lbs of food impounded/condemned. The number of sweeps varies between Supervisorial Districts due to several factors including: 1) supplemental funding provided by some districts to perform sweeps in their respective districts; 2) number of illegal vending complaints received from the area; 3) differing approaches to enforcement among cities; and 4) availability of local law enforcement to participate in sweeps. A comparison of the inspections previously conducted and reported in the June 13, 2008 update revealed an increase of 63% during 2009.

### **FUNDING**

Multi-agency sweeps targeting illegal vendors are conducted both during regular working hours, as well as during evenings and weekends. Most sweeps are generally funded from the EH budget. Other funding has included an allocation of \$333,000 from the First District for FY 2008-2009;

however, no funds were allocated for FY 2009-10. The Fifth District allocated \$80,000 for inspections of illegal vendors for both FY 2008-09 and FY 2009-10; however \$68,000 was unspent in FY 2008-09 and rolled over to FY 2009-10. It is anticipated, however, that 80-90% of the allocation will be used by the end of this FY 2009-10.

Several sweeps have also been funded by private entities for specific events throughout the county. For example, in December 2009, the Business Improvement District in association with the Downtown Los Angeles Fashion District provided sweep funding.

In addition to the sweeps referenced above, which were conducted by the Street Vending Compliance Program (SVC), staff from EH's 16 local district offices also performed illegal vending enforcement activities throughout the county in response to individual complaints. For the period of July 2008 to January 2010, local district staff responded to 1,500 illegal vendor complaints and devoted 1,930 hours during regular work days and 2,109 hours during evenings and on weekends to vending enforcement activities. See Attachment II for enforcement activities in each supervisorial district.

The enforcement activities conducted by the local district staff general target individual vendors. Local district staff will often conduct these operations alone or accompanied by a single law enforcement officer. This is in contrast to sweeps, which are carried out with support from multiple law enforcement officers. Because fewer resources are available for local district activities, staff do not typically have the ability to confiscate and/or destroy equipment and food, but will issue a citation ordering the illegal vendor to cease operations and appear for an office hearing. The vast majority of vendors fail to appear for the hearing. There is no incentive, beyond the possibility of retrieving confiscated equipment, to attend a hearing, and most violators see the loss of food and equipment as the cost of doing business.

## **CHALLENGES**

Environmental Health is working aggressively to address illegal food vending throughout the county. Despite the successes some challenges remain.

### **Scheduling of Sweeps**

Because of safety and security issues, all sweeps must be conducted in conjunction with local law enforcement agencies. These joint operations are often hampered by a reluctance of local law enforcement officers to cross precinct boundaries, and the limited availability of law enforcement officers available to support the operations. Additionally, due to resource constraint there is a substantial delay in scheduling and conducting a sweep once a complaint/request is received. In view of resource constraints, this delay can be as long as four months.

### **Limited Resources**

EH continues to struggle with balancing the need to perform mandated inspections of permitted mobile food facilities and the increasing demand for illegal food vending enforcement. To address this issue, the SVC was created to focus exclusively on illegal street vending. The SVC is

composed of 11 inspectors who address this problem countywide. The program conducts approximately twenty-five sweeps per month, although as many as 300 complaints may be received.

#### **Prevalence**

Illegal vending of food is proliferating throughout the County at an alarming rate. The Fourth District in previous years had no sweep activity but required five sweeps in the Harbor area during 2009. The number of complaints directed to the local districts from the First, Third, Fourth and Fifth Supervisorial Districts for the seven-month period of July 2009 through January 2010 exceeded the number of complaints received during the entire FY 2008-09.

#### **Enforcement**

Current enforcement activities are limited to condemning and/or impounding food and equipment. The inability to obtain accurate vendor identification (e.g., name, address) hampers the ability to track repeat violators or take further legal actions such as filing criminal complaints. The inability to obtain identification is due to the fact that vendors routinely abandon equipment and food during enforcement actions or routinely do not carry identification. As mentioned previously, if a vendor is cited with a hearing, they rarely appear for office hearings to retrieve confiscated equipment. For many illegal vendors, it is far more cost effective to simply build or purchase new equipment and food than to answer to the violations. As a result, the possibility of an illegal vendor's equipment and food being confiscated becomes an "acceptable" business practice.

Stricter enforcement is needed to raise the cost and consequences of operating an illegal food business. Adopting policies and routine procedures to secure fingerprints, photographs and other identification during inspections in order to effect arrests for repeat violators would be a needed first step in reducing the current trend of increased illegal street vending.

#### **Consumer Education and Proposed Letter Grading of Mobile Food Facilities**

In general, many members of the public patronize illegal food vendors despite the health risks. A public education campaign is needed to address this problem and educate and inform consumers. DPH is currently developing a proposal for the letter grading of all lawful mobile food facilities, similar to the existing restaurant grading program. By implementing a grading system for mobile food facilities, members of the public will be able to identify and distinguish permitted food businesses from those that are illegal.

#### **Impound Space/Vehicles**

Historically, there has been a lack of strategically located impound facilities for the temporary storage of confiscated equipment. EH has utilized a single impound facility at 313 N. Figueroa in Los Angeles to store impounded vehicles and equipment. A proposed additional facility has been identified in the north area of the County. EH is working with the CEO to finalize the acquisition of this facility. The additional facility will allow for more impound space, as well as improve

Each Health Deputy  
April 6, 2010  
Page 4

enforcement efficiency by reducing time spent driving to the often distant impound storage facility.

In order to more efficiently confiscate equipment used by illegal vendors, EH acquired four new flatbed trucks in 2008-2009 bringing the total fleet to five flatbed trucks and one pickup truck. Two of the additional trucks were purchased with funds provided by the Fifth District and the remaining two trucks were purchased with EH general funds.

If you should have any questions, please let me know.
